

CLAIM AMENDMENTS

It is respectfully requested that the claims be amended without prejudice, without admission, without surrender of subject matter, and without intention of creating any estoppel as to equivalents, as follows. This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

Claims 1-27 (canceled).

28 (previously presented). A method of washing hands, comprising the steps of:

- a) providing a liquid soap which includes:
 - i) a non-aqueous carrier;
 - ii) a plurality of non-aqueous carrier stable capsules entrained in said non-aqueous carrier; and
 - iii) an amount of encapsulated material contained in each of said plurality of non-aqueous carrier stable capsules;
- b) applying said liquid hand soap to hands;
- c) combining said liquid hand soap applied to said hands with an amount of water;
- d) rupturing said plurality of capsules by exposure to said amount of water to release said encapsulated material; and
- e) sensorially perceiving at least one indicia upon release of said encapsulated material from said plurality of capsules.

29 (previously presented). A method of washing hands as described in claim 28, further comprising the step of configuring said capsules to rupture after a duration of time coincident to a discrete event occurrence.

30 (previously presented). A method of washing hands as described in claim 29, further comprising the step of configuring a population of capsules to rupture at a rate which provides perceivable sensorial reinforcement attributes.

31 (previously presented). A method of washing hands as described in claim 28, wherein said amount of encapsulated material contained in each of said plurality of non-aqueous carrier stable capsules comprises a dye.

32 (previously presented). A method of washing hands as described in claim 28, wherein said amount of encapsulated material contained in each of said plurality of non-aqueous carrier stable capsules comprises an indicator which changes color based upon pH.

33 (previously presented). A method of washing hands as described in claim 32, further comprising the step of providing an amount of base in said non-aqueous carrier.

34 (previously presented). A method of washing hands as described in claim 32, further comprising the step of providing an amount of acid in said non-aqueous carrier.

35 (previously presented). A method of washing hands as described in claim 28, wherein said amount of encapsulated material contained in each of said plurality of non-aqueous carrier stable capsules comprises a fragrance.
